“ I F ”

By B. F. AUSTIN

I F I can throw a single ray of light
Across the darkened pathway of another ;
If I can aid some soul to clearer sight
Of life and duty, and thus bless my brother ;
If I can wipe from any human cheek a tear,
I shall not then have lived in vain while here.

If I can guide some erring one to truth,
Inspire within his heart a sense of duty ;
If I can plant within the soul of rosy youth
A sense of right, a love of truth and beauty ;
If I can teach one man that God and Heaven are near,
I shall not then have lived in vain while here.

If from my mind I banish doubt and fear,
And keep my life attuned to love and kindness ;
If I can scatter light and hope and cheer,
And help remove the curse of mental blindness ;
If I can make more joy, more hope, less pain,
I shall not then have lived and loved in vain.

If by life's roadside I can plant a tree,
Beneath whose shade some wearied head may rest ;
Though I may never share its shade, or see
Its beauty, I shall yet be truly blest—
Though no one knows my name, nor drops a flow'r upon my bier,
I shall not then have lived in vain while here.

INTRODUCTION

Technicians, Meet Your Co-Workers!

Technicians of the Dawn meet and know one another for the first time in "Who's Who in Occult, Psychic and Spiritual Realms," the manumetal task of William C. Hartmann.

His "Who's Who" will play an important role in the Drama of Transition of this multiple-nodal swing of humanity into a New Era of reciprocity, justice and Spiritual Unity.

The golden thread of Service has connected all ages and all cells of the greater humanity, for Service is Love in Action. Mr. Hartmann is server indeed in pioneering in this biggest definite step yet taken in a concrete way to show us to ourselves as a great diversified family—and yet a family with all the ties and co-ordination needed in the home. This "Who's Who" furnishes all seekers of the divine and the "hidden" a heartstone from which to peep comfortably into the faces—and let us hope the souls—of those others who are serving. William C. Hartmann is a true Technician of the Dawn, a deep student of esoteric and spiritual subjects, with an outstanding characteristic humanitarian instinct, a searcher of Truth wherever found, and adds to clear thinking and generous appraisal a veritable gluttony for hard, painstaking work. Into this man-mixture is generously sifted love and understanding, a vision of technique, and an organizing ability which provides a worthy channel for this inter-weaving loom of "Who's Who," in which we shall see woven the tent-fabrics beneath which can gather into one spiritual fold the Occult Brotherhood without regard to personal beliefs as a common meeting ground to establish relationship between all movements (and individuals) in metaphysical, psychic and spiritual schools of thought and practice.

Never has anything of like magnitude been attempted in this field. It is a channel—your channel. Mr. Hartmann and the publishers are but co-operators of you and you and you and you as co-channels of the divine in giving you a means of knowing where to find one another, who you are and what you are trying to do. This edition—carefully edited as it is and completely equipped with information—is but the foundation for future editions of this world-survey of the field which is the harvest area for the Dawn.

Panhumanity needs first a survey. Jehovah asked his prophet to scoot out from under his juniper bush. When he did so he found Israel full of the faithful. "Who's Who" sweeps away the juniper bushes of the world and reveals the strength of those who are Messengers, Servers, Seekers and Technicians of the Dawn.

A new heaven and a new world come as we learn the technique of building—not by waving of magic wands. The New Era is the work of skilled artisans who have builded physical bodies, good minds and spiritual wings to be worthy of direction. This means Unity of goal—by no means unity of belief. A diversified unity is the safest aim of those of us who as interlinking technicians have sought to serve by bringing unity of tolerance within the Temple of the Dawn. Upon a few great foundation-stones must the Temple of Dawn be reared. Hartmann's "Who's Who" is such a stone, quarried from the mountains of the dawn as a basis for understanding—which is to know your neighbor.

"Who's Who in Occult, Psychic and Spiritual Realms" is in no small measure what you and I make it. It is all-inclusive as we help its able editor and publishers to make it. It is our tool—the world's tool.

A panhuman platform devoid of propaganda, a spiritual clearing-house, an avenue to the Temple of the Dawn, a continuing convention of Servers, such and more is "*Hartmann's Who's Who.*"

FOREWORD

The first issue of "Who's Who in Occult, Psychic and Spiritual Realms" has been largely a labor of love in the interest of Seekers of Truth, with the intention of providing them with a basis for the continuation of their studies along the lines of the many different philosophies with which the world abounds, and in the realization of the fact that there is truth in all of them. We are students of all, but slaves of none.

Considerable "midnight oil" has been consumed in the preparation of this data, and it has taken upwards of two years of constant application to bring out this work in its present form.

In publishing the first issue of this book, we do so without apologies for weak points in any one of the different departments, nor with any feeling of elation of accomplishment, as we are only too well aware of our own shortcomings, which we hope to remedy in future editions, but it must be borne in mind that up to the present this work has been "a one-man job," while there is room for a dozen or more. By the very nature of the work itself, however, it behooves us to bring this out now, as perfection or we should say completeness can only be realized by actual contact with the public most vitally interested in the contents thereof.

Much more information could have been brought to light, if those most directly concerned had been either more prompt or more detailed in their replies to our questionnaires, but this we hope will now be remedied by a demonstration of more personal interest, since the nature and scope of the work has been visualized.

It behooves all those who are related to the nature of this work to keep us fully advised of their activities, so as to enable us to amplify the various departments covered, so that the names of all societies, their objects and aims, with their affiliates together with addresses may be correctly represented.

It has been a great pleasure, and a measure of considerable personal gratification, to have received hundreds of letters from illuminated minds, commending our work, and we want to thank one and all of our army of well-wishers for the fuel that kept our fires of effort burning.

We particularly want to thank the editors of the different magazines who continued to supply us with copies of their periodicals to aid us in the pursuit of material, such as "The Occult Review" and "Light" of London; "La Revue Spirite," "Revue Metapsychique" and "Archives du Spiritisme Mondial" of France; "Psychische Studien," "Theosophisches Streben," "Die Weisse Fahne," "Zeitschrift fur Zeelenleben," "Wahres Leben" and "Zum Licht" of Germany; "The Vedic

Magazine" and "The Maha-Bodhi" of India; "Theosophy in Australia;" "The Canadian Theosophist" and "The Torch" of Canada, and practically all of the magazines published in the United States covering our subjects. For special interest in our work we particularly want to thank Dr. Guy Bogart of Los Angeles, Mr. Alfred Emerson of Washington, D. C.; Rev. William H. Woodfin of St. Louis, Dr. Eugene Del Mar of Philadelphia, Dr. Ralph M. De Bit of Los Angeles, Mr. James Abbott of Chicago, Dr. B. F. Austin and Mr. Llewellyn George of Los Angeles, Dr. Hereward Carrington, Horace Holley, and Dr. George Winslow Plummer of New York, Mr. Chas. L. Hyde, Sr., of Pierre, S. Dak.; Mr. and Mrs. Brownell of Santa Barbara, Mrs. Jean Roberts Albert of Juliaetta, Ind.; Mr. Laurence K. Hyde of Minneapolis, Messrs. Jean Meyer and André Ripert of France, Sir Arthur Conan Doyle, Mr. George F. Knott, Miss Estelle W. Stead and Mrs. F. E. Leaning of England, Mr. Walter Blake of Australia and all the many others who have sent us words of encouragement and appreciation, no slight being intended if their names are not specially referred to in this brief "foreword."

We sincerely hope that all those who have the success of a work of this sort at heart, and who feel that it is something which is needed in the world, will communicate with us with a view of collaboration, working towards greater perfection in future issues, and we want to particularly stress the point that those who desire questionnaires sent to them in anticipation of the next issue of this work will write to us so that they may be sure of attention being given them in time.

As matters stand now, we look upon the result of our efforts as an architect would who is gazing upon his foundations in fond anticipation of a wonderful superstructure to be later erected thereon—the idol of his dreams.

And so we leave the acceptance and future development of "Who's Who in Occult, Phychic and Spiritual Realms" in the hands of the "Seekers After Truth" of the world.

WM. C. HARTMANN.

JESUS AND SIDDARTHA

Dedicated to Edmund Russell

By DR. GUY BOGART

ONE from the manger and one from the palace came;
Their goal the same.
Their search only to find
Liberation for mankind.
One only solvent—
Love.

And one died young and one lived long;
Yet sang the selfsame song:
One only hope in
Love.

One died on the cross and one in peace,
Yet each found refuge and surcease
In living the truth of
Love.

Spires and domes and priests and creeds
Obscure their message for human needs
And divert the stream of
Love.

Yet the truth of the Christ
And the truth of the Buddha
Is stronger than bricks and stones,
And greater far than sacraments and robes.

One from the manger and one from the palace came
When the world had need;
And the message today's the same
As living saviors sow the seed of
Love.

By special request we reprint from "The Stratford Journal" of Boston, Dr. Bogart's popular poem, praised by William Stanley Braithwaite; of which Robert Service said "This is real poetry"; Edmund Russell, "It should be written on tablets of gold," and Tagore, "The poem is indeed remarkable."

LIGHT

By WILLIAM HARDY

WHEN skies are overcast
With clouds in angry mood ;

When all is drear and dark
And only troubles brood ;

When waves of oceans blue
In frenzied anger leap ;

And vessels staunch and true
Sink in the briny deep ;

When streaks of lightning flash
And peals of thunder roar ;

When rivers madly dash
To see their source no more ;

When days are dark as night
And hope seems to have fled ;

When not a gleam of light
Lifts up my heart, like lead ;

'Tis then an angel face
Before my mind appears ;

And scatters ev'ry trace
Of idle tears or fears.

With me she forms a bond
That ever guides me right,

As with her angel wand
She turns all gloom to *Light*.

ASTROLOGY

UNITED STATES

AMERICAN ACADEMY OF ASTROLOGIANS, Inc.

Limited to a Membership of Thirty Fellows.

The American Academy of Astrologians has been recently organized in New York City, and duly incorporated. This organization is unique, in that it is limited to thirty members, and composed only of such as are of proved capacity and representative in its literature—the constructivist as compared with the mere student or practitioner. While there is no reflection upon the rank and file of astrologers in the seeming oligarchic character of this selective personnel, a creditable distinction obtains to those fortunate enough to be of the limited coterie.

This number is at no time to be exceeded, and the chairs vacated through death or otherwise will be refilled with a scrupulous regard to the requirements for eligibility, thus insuring the permanency as well as maintaining the integrity of the institution. A Year Book is to be issued, to which each Academician will contribute a paper, and so providing annually a volume of standard literature on the doctrine. An Academy magazine will make its premiere in the near future.

The roster as at present constituted includes mostly names of international repute in the astro-philosophical field.

BAHA'I MOVEMENT

THE NATIONAL SPIRITUAL ASSEMBLY OF THE BAHAI'S OF THE UNITED STATES AND CANADA. Office of the Secretary: Green Acre, South Eliot, Maine.

THE BAHAI CAUSE
(Contributed)

"The source of all learning is the knowledge of God, exalted be His glory! and this cannot be attained save through the knowledge of His divine Manifestation."

—BAHA'U'LLAH.

"The gift of God to this enlightened age is the knowledge of the oneness of mankind and the fundamental oneness of religion. War shall cease between nations, and by the will of God the Most Great Peace shall come; the world will be seen as a new world, and all men will live as brothers."

—ABDU'L BAHÁ.

Since May 23, 1844, the Baha'i Cause has been steadfastly presented to the world as the expression for this age of the same universal Spirit that in other ages spoke through the Zoroaster, the Moses, the Jesus, and the Mohamet; one divine utterance giving forth one and the same message, albeit adapted to the conditions and human capacities of each time. In Baha'u'llah, according to the faith of the Baha'is, the Message has been given mankind in its fullness and universality, and the Baha'i Cause accordingly represents the fulfilment of that which was but partially revealed in previous religions.

A significant part of the teachings of Baha'u'llah consists of an interpretation of the Bibles of the past, proving that they are several expressions of one fundamental Truth and hence to be regarded with equal reverence by all races and peoples. Another part of the Baha'i Message is devoted to an exposition of the fact that it is only through spiritual ignorance that mankind divides truth into separate, unrelated and frequently hostile sections: religion, science, ethics, politics, economics and art; and that in this new age these false and arbitrary divisions shall be destroyed, since from them derive the fatal divisions of society into nations, creeds, classes and the many diverse interests rending the modern world. Still another, most significant

portion of the teaching concerns itself with revealing the new, universal possibilities of the present age—an age whose essence is the fact that now all the ideals and visions of the past can be translated into realities for the expansion and enrichment of all lives according to the capacity of the individual soul.

In the limited space of this brief outline, the Baha'i teachings can not be mentioned in further detail. The inquirer will find those teachings fully expounded in the works of Baha'u'llah, the founder of the Baha'i Cause, and of Abdu'l Baha, whom Baha'u'llah appointed as the center of his covenant and the interpreter of his books.

Of importance second only to the teachings themselves, however, is the history of the manner in which the world received the Message of Baha'u'llah. His forerunner and herald, now known as the "Bab," meaning Door or Gate of Truth, was executed by order of the Persian Government under the instigation of the clergy, in the public square of Tabriz, on July 9, 1850. Practically all who accepted the new message suffered martyrdom during the next few years. Twenty thousand deaths have been recorded among the followers of the Bab and Baha'u'llah at the hands of the fanatic mob, isolated cases of religious murder occurring in Persia even up to the year 1924. But persecution has resulted in the more rapid and determined spread of the Cause. From the first, therefore, the Baha'i teachings have been identified with an extremity of persecution proving beyond all doubt the essentially spiritual character of this movement and distinguishing it from other modern movements content with a mental acceptance involving no sacrifice or loss.

Baha'u'llah himself, together with his eldest son Abdu'l Baha, then a child of eight, the other members of his family and some three score followers, was exiled from Teheran to Bagdad, from Bagdad to Constantinople, from Constantinople to Adrianople, and from thence finally to Acca, in Palestine, where they remained under the surveillance of the Turkish Government until freed by the victory of the Young Turks party in 1907. Those years were occupied with training his followers, directing the affairs of the movement, and the writing of his books, until his death in 1892.

From 1892 to 1921, Abdu'l Baha guided the movement and caused its spread to India and other part of the East, to Europe and to North America. The Baha'i Cause today, under the guardianship of Shoghi Effendi, the grandson of Abdu'l Baha, is a spiritual fellowship embracing men and women of all races and religions, organized in a true world-wide unity that might well be taken as a model, both as to spirit and form, by other organizations in the inter-national field.

The Bahá'í Message is a call to religious unity and not an invitation to a new religion, not a new path to immortality, God forbid! It is the ancient path cleared of the debris of imaginations and superstitions of men, of the debris of strife and misunderstanding and is again made a clear path to the sincere seeker, that he may enter therein in assurance, and find that the word of God is one word, though the speakers were many.

—Words of 'Abdú'l-Bahá.

BASIC BAHÁ'Í PRINCIPLES

1. The oneness of mankind.
2. Independent investigation of truth.
3. The foundation of all religions is one.

4. Religion must be the cause of unity.
5. Religion must be in accord with science and reason.
6. Equality between men and women.
7. Prejudice of all kinds must be forgotten.
8. Universal peace.
9. Universal Education.
10. Solution of the economic problem.
11. A universal language.
12. An international tribunal.

Compiled from the words of 'Abdú'l Bahá. These principles were laid down by Bahá'u'lláh in 1863 and are to be found in his published writings of that time.

CHRISTIAN MYSTICISM

THE ORDER OF CHRISTIAN MYSTICS (The Order of the 15). A world-wide impersonal non-sectarian spiritual movement for the promulgation of a Cosmic and all-inclusive spiritual philosophy which gives a satisfactory and scientific explanation of every phase and condition of life here and hereafter. Monthly Lessons. Free samples sent on request. Founders, Dr. and Mrs. F. Homer Curtiss, Box 556, San Francisco, Calif.

THE ORDER OF CHRISTIAN MYSTICS (Contributed)

The Order of Christian Mystics is but one name for a great Cosmic Order which has always existed and through which all Souls who have reached Mastery have passed on some plane, at a certain stage of their evolution. It has been represented upon the earth-plane at certain cyclic intervals in all ages, and has been known under various names, yet always emphasizing the universality of Truth and presenting a Cosmic Philosophy which can be interpreted and used by every sincere seeker after Truth from his own angle of vision and at any stage of unfoldment he may reach.

Its manifestation upon the earth-plane during the present cycle began on January 1st, 1908, its numerical name, The Order of the 15, being then used. But now that the Order is reaching, in ever increasing numbers, that great class who have been looked upon as orthodox Christians, yet who are eagerly seeking more definite instruction concerning the mysteries of the spiritual life, the name of the philosophy which the Order presents is used instead.

The Order of Christian Mystics is a non-sectarian, unifying spiritual movement, inspired by an unselfish love for humanity, and a desire to help mankind to recognize the reality, and make practical use, of its spiritual guidance in the daily life.

It is Christian in that it seeks the universal Cosmic Christ Principle, no matter by what name that Universal Principle is known in other lands; and in that it bases its teachings on the Christian rather than on Oriental scriptures. It is Mystic in that it teaches its pupils the mystery of how to come into personal and conscious touch with the Christ-consciousness within, and with the Spiritual Teachers in the higher realms.

THE ESSENES

THE BROTHERHOOD OF THE ESSENES

Nature of Organization

THE BROTHERHOOD OF THE ESSENES, Aqua Regia, Down Rd., Portishead, near Bristol.

The above is situated some 300 feet above sea level, on a tract of land about twelve miles from Bristol, some portions are inhabited and others are under construction.

The Brotherhood deals with the Essenic system of Astro-Pathology as handed down under Divine Guidance, and interpreted by this devout body of men.

Many separate bodies of the Essenes have lived, worked for the cause and died, but the grand truth of Astro-Pathology remains.

Just as error dies hard, but does eventually perish, so truth arises phoenix-like from the very ashes, and the time has arrived for this great truth to again emerge from darkness into light.

Fixing its natural base in the science of BOTANY, and using the herbs of the ground, it applies these in a manner that awakens the three great centres in human anatomy and produces results different and distinct from other methods.

The ESSENIC system of Philosophy and Healing is based upon this DIVINE TRINITY using BOTANY for the body, PSYCHOLOGY for the soul and the SPHEROGRAPH for the position of the SPIRITUAL EGO in GOD'S PLAN.

THE LIBERAL CATHOLIC CHURCH

Statement of Principles (Contributed)

The Liberal Catholic Church exists to forward the work of her Master—Christ—in the world, and to feed His flock.

It is an independent and autonomous body, in no way dependent upon the See of Rome, or upon any other see or authority outside its own administration. It is neither Roman Catholic nor Protestant—but Catholic. It is called Liberal Catholic because its outlook is both liberal and Catholic. Catholic means universal, but the word has also come to stand for the outlook of the historical Church as distinct from that of the later sects. The Liberal Catholic Church allies itself with this historical tradition. It aims at combining the Catholic form of worship—its stately ritual, its deep mysticism and its abiding witness to the reality of sacramental grace—with the widest measure of intellectual liberty and respect for the individual conscience.

The Liberal Catholic Church came into existence as the result of a complete re-organization in 1915-16 of the Old Catholic movement in Great Britain, which derived its Orders from the mother-see of the Old Catholic movement, the ancient archiepiscopal see of Utrecht in Holland. The Liberal Catholic Church has carefully preserved this succession of Orders, but took its present name for a variety of reasons.

The name "Old Catholic" labours, especially in newer countries, under the constant and serious disadvantage of being confused with "Roman Catholic." Further, the religious and doctrinal outlook of historical Old Catholicism is not that of the Liberal Catholic Church, which has nothing to do with the policy or organization of the Continental Old Catholic Churches and does not wish that there should be imputed to them principles of liberalism in religion which would still be distasteful to the Church of Utrecht and the majority of the Churches in communion with her. If it describes itself as "Old Catholic," it does so to indicate the source of its Orders and its organic unity with the historical church.

DECLARATION OF PRINCIPLES OF THE INTERNATIONAL NEW THOUGHT ALLIANCE

We affirm the freedom of each soul as to choice and as to belief, and would not, by the adoption of any declaration of principles, limit such freedom. The essence of the New Thought is Truth, and each individual must be loyal to the Truth he sees. The windows of his soul must be kept open at each moment for the higher light, and his mind must be always hospitable to each new inspiration.

We affirm the Good. This is supreme, universal and everlasting. Man is made in the image of the Good, and evil and pain are but the tests and correctives that appear when his thought does not reflect the full glory of this image.

We affirm health, which is man's divine inheritance. Man's body is his holy temple. Every function of it, every cell of it, is intelligent, and is shaped, ruled, repaired, and controlled by mind. He whose body is full of light is full of health. Spiritual healing has existed among all races in all times. It has now become a part of the higher science and art of living the life more abundant.

We affirm the divine supply. He who serves God and man in the full understanding of the law of compensation shall not lack. Within us are unused resources of energy and power. He who lives with his whole being, and thus expresses fullness, shall reap fullness in return. He who gives himself, he who knows and acts in his highest knowledge, he who trusts in the divine return, has learned the law of success.

We affirm the teaching of Christ that the Kingdom of Heaven is within us, that we are one with the Father, that we should not judge, that we should love one another, that we should heal the sick, that we should return good for evil, that we should minister to others, and that we should be perfect even as our Father in Heaven is perfect. These are not only ideals, but practical, everyday working principles.

We affirm the new thought of God as Universal Love, Life, Truth and Joy, in whom we live, move, and have our being, and by whom we are held together; that His mind is our mind now, that realizing our oneness with Him means love, truth, peace, health and plenty, not only in our own lives but in the giving out of these fruits of the Spirit to others.

We affirm these things, not as a profession, but practice, not on one day of the week, but in every hour and minute of every day, sleeping and waking, not in the ministry of a few, but in a service that includes the democracy of all, not in words alone, but in the innermost thoughts of the heart expressed in living the life. "By their fruits ye shall know them."

We affirm Heaven here and now, the life everlasting that becomes conscious immortality, the communion of mind with mind throughout the universe of thoughts, the nothingness of all error and negation, including death, the variety in unity that produces the individual expressions of the One-Life, and the quickened realization of the indwelling God in each soul that is making a new heaven and a new earth.

We affirm that the universe is spiritual and we are spiritual beings. This is the Christ message to the twentieth century, and it is a message not so much of words as of works. To attain this, however, we must be clean, honest and trustworthy and uphold the Jesus Christ standards as taught in the Four Gospels. We now have the golden opportunity to form a real Christ movement. Let us build our house upon this rock, and nothing can prevail against it. This is the vision and mission of the Alliance.

THE AQUARIAN MINISTRY**SANTA BARBARA, CALIFORNIA**

This Ministry is a Ministry-at-large, organized to meet the growing spiritual needs of this new Age—The Aquarian Age—into which our solar system has just passed. This Age stands for Brotherhood, Illumination, Healing and Spiritual Unfoldment through LOVE and SERVICE.

We interfere with no one's religious affiliations for we know that "Where the Spirit of the Lord is there is liberty." People of all faiths have been helped by our teaching and have given it their hearty endorsement. We are here to help all souls to the highest understanding of Truth as it is revealed to us.

PURPOSES

To show that one's heritage is Divine, and that every one has the power within to rise above hereditary influences and the limitations of environment.

To awaken latent powers that make for mastery.

To teach the joy and blessedness of Love and Service and Generosity to all.

To awaken souls to Paul's realization, when he said: "Ye are the Temple of the Living God, and the Spirit of the Almighty dwelleth in you," and to Jesus' words, "The Kingdom of Heaven is within you."

To show the value of Right Thinking and Right Living in building a grand and beautiful life-structure through which to express the soul-life in the Beauty of Wholeness.

To bring Healing and Illumination to all.

To help mothers during the period of gestation and childbirth that their children may come with high ideals and purposes, born with healthy bodies to express the true image and likeness of God implanted in them. In other words, to help establish the Kingdom of Heaven on earth (in which peace, harmony, love, service, health, joy, gladness and true fellowship shall prevail) by awakening the consciousness of the Kingdom in the hearts and minds of all individuals. It can come in no other way.

MAZDAZNAN

declares that the Infallible Plan of Salvation lies in the Application of Means of Purification leading into Regeneration, with the first step essential unto Salvation from Ancestral Ties through the efficacy of rhythmic Prayers and Songs breathed on

the breath, the utterance of language whereof, guided by Thought, imparts Freedom to the dynamics of life, assuring more perfect and harmonious operations throughout the body and its corresponding factors, quickening the latent forces to renewed action, effecting restoration; filling the heretofore unclaimed tissues and energies with Galama, the centralizing life principle, which when retained through increased organic operations induces a higher rate of consciousness and with it brings about the immaculate conception of man born again and born of the spirit.

General Outline

The Occult Brotherhood does not represent any particular Philosophical or Spiritual Movement, but is all inclusive in so far as its membership is concerned.

The activities of this Brotherhood are largely of a directional nature along educational and informational lines, and everyone is welcome to its ranks, though only the seekers after Truth, will be attracted to it.

Its "Objects" may be summarized by saying that it aims at the illumination of the human mind, and to pave the way for the individual soul's further spiritual unfoldment.

It strives for a betterment of human conditions, for greater knowledge of the hidden side of things, the study of Nature's Laws, and the study of what may well be termed, "The Mystery of Life" and "The Science of Being."

It's outstanding endeavor is to aid each individual human entity, in reaching the highest possible point of spiritual development in its present incarnation.

There are no secret degrees in The Occult Brotherhood. All members are on an equal basis, with the exception that there is an "Outer" and an "Inner" Court. Admission to the "Inner Court" is by selection and presentation only, according to the spiritual development or accomplishments of the individual.

The Brotherhood honors all those who are striving for the higher things in life, be they Bahaists, Buddhists, Brahmins, Christian Scientists, New Thought Advocates, Oriental Occultists, Practical Psychologists, Psychical Researchers, Spiritualists, Theosophists, Jews or Gentiles, or natives of any clime or color. All are welcome to the ranks of The Occult Brotherhood, where the spirit of Toleration and the Brotherhood of Man will find their true expression in a practical manner.

OBJECTS

The HERALD OF THE STAR is the official organ of the Order of the Star in the East, and is obtainable through the Officers of the Order in the various countries of the world. A list of these Officers is given above.

The Order of the Star in the East is an organization which has arisen out of the rapidly growing expectation of the near coming of a great spiritual Teacher, which is visible in many parts of the world today. In all the great faiths at the present time, and in practically every race, there are people who are looking for such a Teacher; and this hope is being expressed quite naturally, in each case, in the terms appropriate to the religion and the locality in which it has sprung up.

It is the object of the Order of the Star in the East, so far as is possible, to gather up and unify this common expectation, wherever and in whatever form it may exist, and to link it into a single great movement of preparation for the Great One whom the age awaits.

The Objects of the Order are embodied in the following Declaration of Principles, acceptance of which is all that is necessary for membership:

- (1) We believe that a Great Teacher will soon appear in the world, and we wish so to live now that we may be worthy to know Him when He comes.
- (2) We shall try, therefore, to keep Him in our minds always, and to do in His name, and, therefore, to the best of our ability, all the work which comes to us in our daily occupation.
- (3) As far as our ordinary duties allow, we shall endeavour to devote a portion of our time each day to some definite work which may help to prepare for His coming.
- (4) We shall seek to make Devotion, Steadfastness, and Gentleness prominent characteristics of our daily life.
- (5) We shall try to begin and end each day with a short period devoted to the asking of His blessing upon all that we try to do for Him and in His name.
- (6) We regard it as our special duty to try to recognize and reverence greatness in whomsoever shown, and to strive to co-operate, as far as we can, with those whom we feel to be spiritually our superiors.

The Order was founded at Benares, India, on January 11th, 1911, and has since both grown and spread rapidly. Its membership now numbers many thousands in all parts of the world, and includes men and women of all the great Faiths and of nearly every nationality.

PSYCHICAL RESEARCH

SCIENTIFIC RESEARCH OF PSYCHIC PHENOMENA

Paper read by Chas. L. Hyde, of Pierre, South Dakota, U. S. A., before the South Dakota Academy of Science, at the Annual Meeting in Huron, South Dakota, U. S. A., October, 1922.

This is in no sense a theological discussion; Philosophy and Theology may quarrel but Science is not vitally concerned with either Philosophy nor Theology except to ascertain what are the actual facts contained in their theories.

Throughout all history, psychic phenomena has been before the peoples of the world demanding a hearing, but only of recent times, have great minds of the scientific field of thought, cared or dared to take it up for serious consideration.

A little more than fifty years ago, there appeared on the scene, a young man, Daniel Dunglas Home, whom many have termed the most wonderful of all physical phenomena generators of modern times.

This person, of rather delicate and frail physique, had a competency come to him, and while desirous of demonstrating the truth and reality of phenomena he developed, he persistently refused to accept at any time, any money consideration for such demonstrations as he gave; this relieved him of much of the censure that otherwise would have followed him; being a person of education, culture and refinement, he was taken into many homes of high repute and gave demonstrations in many of the royal palaces and governmental homes throughout Europe, where the possibility of fraud was greatly lessened; men of scientific and literary attainments were invited to these demonstrations among them Sir William Crookes, one of the World's most noted Scientists, who was so impressed by the phenomena he saw, that he undertook a thorough and careful investigation of the subject.

In the years 1871-1872 and 1873, Sir William Crookes, devoted much of his time to this subject; he took Mr. Home, also a remarkable young girl psychic, Florence Cook, and other psychics, at different times, into his home, where they lived for days and weeks at a time with his family, and where possible elements of fraud would be most easily detected, as well as most difficult to promulgate; he invited in many of his scientific friends and associates to witness the demonstrations and every possible effort was made to detect fraud or prevent illusion.

In 1874 Sir William made public announcement of his conclusions and findings, which at that time required even more moral courage than it would today, which most of us know is not small, for the creeds of theology and especially, the great Catholic church, have ever seemed ready to attack from every possible angle, such scientific discovery as they thought interfered with their theories of salvation and education.

His conclusions were full and complete acceptance of the reality of the wonderful phenomena of levitation of the human body and other material objects, without contact, and of the yet more wonderful phenomena of materialization and of communication with spirit intelligencies.

About this time came the investigations of Professor Robert Hare, of the University of Pennsylvania, a graduate of both Yale and Harvard, who afterwards became the author of "Spiritualism Scientifically Demonstrated," his report, covering 450 pages, was complete and so brilliant a writer as Sir Arthur Conan Doyle, commenting upon it, says in one of his books: "I say deliberately that from the hour of the Hare report, there has been no excuse for the human race refusing to recognize the reality of psychic phenomena, and it has been nothing but ignorance and prejudice, with the constant misrepresentations of those who should have been its leaders, which has stood in the way of this greatest of revelations."

Prof. Hare gave many details and his report was most convincing to those who could read it without prejudice, or who were more interested in ascertaining facts than in substantiating preconceived theories.

Soon after this, another very great man of science, Dr. Alfred Russell Wallace, co-discoverer with Charles Darwin of the origin of species, devoted his time and thought for a time almost exclusively to the investigation of this subject.

Dr. Wallace at that time was a convinced rationalist but a close observer and fearless deep thinker; Wallace's researches convinced him of the truth of the phenomena and he announced his conversion with courage; later he became the author of that wonderful work "Spiritualism and Modern Miracles," at one time he wrote thus, "My position then is that the phenomena of Spiritualism in their entirety do not require further confirmation. They are proved quite as well as any facts are proved in other sciences, and it is not denial or quibbling that can disprove any of them"; it would be hard indeed for any intelligent and honest mind to read this great work of Dr. Wallace's and not be convinced of the reality of psychic phenomena.

In 1882 the Society for Psychical Research was founded in London. The members were generally very agnostic and hostile to the subject, being confident in their opinion (as are most of the uninformed on this great subject today) that it was a question of fraud or deceit or of delusion or illusion.

This society has exposed much fraud; they have had their paid secretaries and officers, who became experts, in solving and elucidating the tricks and legerdemain of those mercenary degenerates who are willing to deal dishonestly in so serious a subject for sake of small gain; almost every member has been a person willing and desirous of assisting in investigations with the sole object of acquiring true knowledge.

F. W. H. Meyers, a great man of Science, connected with this society as one of its leaders, in his early writings, persistently undertook to refute all spiritualistic theories; he died a confirmed spiritualist and his writings on the subject, the later part of his life, were extensive and convincing.

The great Dr. Hodgson, who became president of the society at one time, was, during his early membership, an avowed exposé of the occult; he was a natural born detective and more than an amateur student of legerdemain; his investigations became very extensive and he soon became a full and fearless convert to psychic science.

Dr. Robert Chambers, F.R.S., author of "Cyclopedia of English Literature," and other great books, says, "Already Spiritualism has had a prodigious effect in redeeming multitudes from hardened atheism and materialism, proving to them by positive demonstration, that there is another world, that there is a non-material form of humanity, and that many miraculous things which hitherto they have scoffed at, are true. I had for many years known that the phenomena are real, as distinguished from imposture, and when fully accepted, revolutionize the whole frame of human opinion on many important matters."

Prof. Herbert Mayo, F.R.S., M.D., Professor of Anatomy and Physiology, Kings College, London, says, "Twenty-five years ago I was a hard headed unbeliever; Spiritual Phenomena however quite unexpectedly developed in my own family. This led me to inquire and to try numerous experiments in such a way as to preclude the possibility of trickery and self deception. That the phenomena does occur is overwhelming evidence; it is too late now to deny their existence."

Professor James Challis, F.R.S., of Cambridge University, says, "The testimony has been so abundant and concertaneous that either the facts must be admitted to be such as reported, or the possibility of certifying facts by human testimony must be given up."

Professor Elliott Coues, M.A., M.D., Ph.D., Professor of Zoology, Norwich University, member of the National Academy of Sciences and author of many scientific books, writes, "Will you have the opinion of such a person as I, who for the past ten years has studied, watched and followed the phenomena of so-called Spiritualism, and who speaks from personal experiences with almost every one of them? Then let me tell you that I know that the alleged phenomena of Spiritualism are true substantially as alleged."

Professor Thornebom, a great scientist of Sweden, says, "Only those deny the phenomena of Spiritualism who have never thoroughly examined them, but profound study alone can explain them."

Professor Zollner of the University of Leipsic, one of Germany's greatest scientists, says, "We have acquired proof of the existence of an invisible world which can, under certain conditions, enter into relations with humanity."

Dr. J. M. Gully, of the Royal College of Surgeons, London, and author of some of the world's greatest scientific books, says, "After two years of investigation of the facts, I have not the slightest doubt, but have the strongest conviction that the phenomena of materialization takes place."

S. C. Hall, F.S.A., a deep scientific student, writes, "The mockers and scoffers at Spiritualistic phenomena, are almost exclusively those who have seen little or nothing of it, know nothing about it, and will not investigate concerning it."

Among the great men of the present scientific field, who have made full and careful study and investigation of this subject and have announced their convictions and conclusions fearlessly and in amplified manner, may be mentioned, Dr. W. F. Barrett, F.R.S., Dean of the Faculty of the Royal College of Sciences; Dr. James H. Hyslop, for many years Professor of Psychology in Columbia University; Dr. Paul Gibier, of the Pasteur Institute, N. Y.; Dr. Hallock of New York; Dr. F. L. Nichols, F.A.S., author of "Esoteric Anthropology"; T. B. Barkas, F.G.S.; Dr. Adam Clarke, and Camille Flammarion, the famous French astronomer.

Flammarion has very recently remarked, "Spiritualism is not a religion but a science." In April, 1920, he wrote as follows: "May we not admit that the atmosphere or ether, may contain a psychic element not yet generally discovered?"

At every instant a human spirit leaves a human body; 40,000,000 times a year this occurs; is it destroyed? Nothing proves that it is, while there is much to prove that it is not annihilated or destroyed.

I have but mentioned a very few of the great scientists of the past or present generation, who have investigated and committed themselves on this wonderful subject; any complete list would be too tedious to listen to; if we go into the field of philosophy we find many thousands of the greatest minds of modern thought, who do not hesitate to openly announce themselves as thoroughly convinced of the facts of psychic phenomena in its most wonderful forms as so generally rejected by the uninformed.

All are not fully agreed as to the causes and the effects. Quite generally they can be classified under these three hypotheses:

1. These powers are the human intelligence, having powers and facilities which we are not now aware of.
2. The phenomena is produced by angelic or demonic beings who are powerful and omniscient.
3. These are the dead, who yet live and know, and who are near to us and can communicate with us.

The first class, comprises generally those who, for reasons not readily understood by others, seem to find it impossible to admit of any spiritual life whatever; they have seen the phenomena produced without fraud, or have been so informed through others in whom they have implicit confidence, so that they believe the phenomena do occur; they speak freely of Telepathy and the sub-conscious mind, but are unable to give any real explanations; in fact telepathy as an explanation, explains nothing; it is like saying "death is caused by disease"; the sub-conscious is indeed a great mystery; there is certainly room for diligent research and knowledge to obtain, from that source; the Spiritualists generally hold that it is the spiritual soul itself, functioning when the material body is wholly or partially asleep; they have not as yet been able to satisfactorily demonstrate or prove this to those who are skeptical of the existence of Spirit.

The second class, comprises largely those who are so well absorbed by their conversion to certain religious concepts and theological education, as to not be interested in the truly scientific consideration of the subject; the great Catholic Church, the Seven Day Adventists, the Presbyterians and other sects have generally taught that psychic phenomena, or what some others term spiritual intercourse, is from the Devil or from evil spirits or demons or elementals; by elementals they usually mean, undeveloped evil spirits which have not been human beings.

It might be fair to say that some of the deepest thinking and most advanced thinkers of these sects mentioned and others, have taken and are taking a wider view of this subject and giving it more extended consideration.

The third class, of course, comprises what might be called Spiritualists, though many of them resent that application, knowing that their views and their knowledge is much broader than that of most people who do not call themselves Spiritualists, or than what the general public understands by the word or term Spiritualist.

Personally we have been deeply interested in this study for many years, having become a member of the Society for Psychical Research in its earlier life; we have had some interesting and to us astounding experiences, some of which, if related in detail, would possibly cause some of our friends to question our integrity.

In December, 1921, while alone in the city of Los Angeles, California, we casually entered the basement room of a neat looking Spiritualist Church where we noticed the sign "Trumpet Medium"; the lady who said she was the pastor of the church congregation, a middle aged woman of highly intellectual and ethical appearance, by name, Mrs. Inez Wagner, kindly offered to attempt to give me a private trumpet seance; we entered a small library or study and after placing two chairs and a trumpet in the center of the room, lowered the blind on the window so that it was almost dark as we seated ourselves.

Soon the trumpet seemed to lift itself into the air and these words were uttered from same, "Charles Hyde, I am your father"; I am very certain that no person thereabout knew me nor did any one knowing me, know where I was at that time; no questions had been asked me and there was no possible way in which my name could have been known to any one thereabouts, except under laws of nature not as yet understood by many.

It was not a case of fraud, but a case of phenomena.

After some satisfying conversation with what purported to be my father's spirit, another voice spoke through the trumpet saying, "This is Charles Leavitt, the man you were named after"; I cannot remember that for years I had thought of Mr. Leavitt, who was an old boyhood chum of my father's; there was certainly no one in that city who knew the facts regarding my middle name as given to me in the conversation I had then and there with what purported to be the spirit or intelligence of Charles Leavitt.

Other voices spoke to me, one a woman's voice who seemed unable to speak except in whisper; she gave the name of Harriet Austin, a lady I had had business dealing with many years ago.

Another wonderful experience I had a few years ago, I feel more free to speak of, as my youngest son Theodore, then aged twelve years was with me; my father's form appeared in full materialization before me; I said, "Theodore, do you see what I see?" and he replied, "Why yes, that is Grandfather, isn't it?"

Never in my experience have I been given at any seance or meeting I have attended, any expression or communication which has had in it any immoral element; everything that I have seen or heard at such times has been of the highest moral and ethical import.

In the face of such experience it is difficult indeed to ascribe it to evil forces and one comes to know that it is not delusion nor illusion; the terms of hypnotism or telepathy or subconscious mind do not answer an intelligent mind as explanation or cause.

I hold that it is much more reasonable to accept the explanations and interpretations of numerous scientific minds, of the world's greatest personalities and profoundest students of the subject, who have devoted years of their time and effort to investigating and experimenting, with the sole purpose of ascertaining what is the truth, what are the facts.

While it is true that as yet many of our great scientific men have refused to seriously investigate psychic phenomena, it is also true that those who have done so, and they represent hundreds if not thousands, almost invariably finally come to the same or harmonious conclusions.

Usually beginning (as was the case with the speaker), with strong tendency if not firm conviction towards rationalism and materialism, but being lovers of fact in preference to theory, they ultimately attain to a knowledge of spiritual life unclouded with the fables or allegories of theology.

Seventy years ago the papers and magazines were full of sarcasm and rejection of mesmerism or what is now more generally termed hypnotism; Dr. Baird, then a leading surgeon of England, was refused the privilege of reading a paper upon it, by the British Association; that subject was then treated quite similarly as the subject of psychic phenomena has more recently been treated by the press at large; now all science accepts the truths regarding hypnotism then rejected, as well demonstrated and unquestioned knowledge.

How long will it be before it will be the brand of ignorance for any person claiming scientific education, to question the reality of psychic phenomena? We boldly state that such time is now close at hand.

ORIGIN OF THE WORK

Considering that more scientific methods should be applied to the study of all types of psychical phenomena, William F. Barrett, professor of physics in the Royal College of Science, Dublin, in 1882 called a conference which resulted in the organization of the Society for Psychical Research in London the same year. Since then that Society has numbered among its Presidents Sir William Crookes, Sir Oliver Lodge, Sir J. J. Thompson, Lord Rayleigh, Prof. William James, Prof. Charles Richet, Prof.

Henri Bergson, Sir William F. Barrett, Prof. Balfour Stewart, Prof. F. C. S. Schiller, Prof. Gilbert Murray, Prof. William McDougall, Bishop Boyd Carpenter, the Rt. Hon. (now Lord) Arthur J. Balfour, the Rt. Hon. Gerald Balfour, and others.

The first American Society for Psychical Research was formed in 1885, in consequence of a visit by Sir W. F. Barrett to this country, and Prof. Simon Newcomb became its President. In 1887 the Society invited a man of singular ability, Richard Hodgson, A.M., LL.D., sometime Lecturer in the University of Cambridge, to become its Executive Secretary and he accepted.

This later became a branch of the English Society under the very able guidance of Dr. Hodgson until his death in 1905. The American Society for Psychical Research was then re-established with James H. Hyslop, Ph.D., formerly Professor of Logic and Ethics in Columbia University, as its Secretary and director.

In 1907 the "Journals" and "Proceedings" began, and have continued uninterruptedly to the present time.

PURPOSE AND SCOPE OF THE SOCIETY

1. The investigation of alleged telepathy, visions and apparitions, dowsing, monitions, premonitions, automatic writing, and other forms of automatism (as speaking, drawing, etc.) psychometry, coincidental dreams, clairvoyance and clairaudience, predictions, physical phenomena (such as materialization, telekinesis, rapping and other sounds), and in short, all types of mediumistic and metapsychical phenomena.

2. The collection, classification, study and publication of reports dealing with the phenomena designated above from first hand acquaintance and seemingly in good faith. Members especially, but also non-members, are asked to supply data or to give information where such may be obtained. Names connected with phenomena must be supplied, but on request these will be treated as sacredly and perpetually confidential.

3. The formation of a Library on all subjects embraced in psychical research, and bordering thereupon. Contributions of books and periodical files will be welcomed and acknowledged in the Journal.

4. Encouragement of the formation of local groups in all parts of the country which will co-operate with and report to the American Society; and especially the encouragement of qualified individuals disposed to give attention to investigation with like co-operation.

CLASSIFIED MEMBERSHIP

Founders, \$5,000.00; Patrons, \$1,000.00; Life Fellows, \$500.00; Life Members, \$200.00; Life Associates, \$100.00.

Members and associates now paying annual dues could greatly help the Society at the present time by joining one of the above life classes, or, if already in one class, by paying the difference and entering one of the higher classes. If this is done by a limited number of our friends our finances will be placed on a firm basis.

THE ROSICRUCIAN FELLOWSHIP

An International Association of Christian Mystics

Mt. Ecclesia, Box 28, Oceanside, Calif.

President, MRS. MAX HEINDEL
Secretary, ANNETT LYTEL

Vice-President, VERA WILSON
Treasurer, ALFRED ADAMS

ORIGIN AND OBJECT (Contributed)

"The Rosicrucian Fellowship is the modern representative of an ancient Mystic Order formed in Europe in the year 1313, by a highly spiritual teacher having the symbolical name Christian Rose Cross. It was his mission to prepare a new phase of the Christian Religion to be used during the coming Aquarian Age, for as the world and men evolve, so also must religions change to meet the needs of altered intellectual conditions.

The Fellowship was established at its present location in 1911, by Max Heindel, its founder and leader. He had previously been made the authorized messenger of the Elder Brothers of the Rosicrucian Order for the purpose of giving to the Western World the Western Wisdom Teaching concerning Life and Being, which the Rosicrucians had guarded for centuries, for it was held that the world was ready to receive this advanced science of the soul, the religious philosophy of the coming age.

Max Heindel passed out in January, 1919, since which time Mrs. Max Heindel has been the leader and director of the work.

Its object is the teaching and dissemination of the Rosicrucian Philosophy. The means of disseminating it are books, a magazine, lectures, and correspondence courses."

ROSICRUCIAN CHRISTIANITY

The Rosicrucian Fellowship is a movement for the dissemination of a definite, logical, and sequential teaching concerning the origin, evolution, and future development of the world and man, showing both the spiritual and scientific aspects; a teaching which makes no statements that are not supported by reason and logic. It satisfies the mind by giving clear explanations, and neither begs nor evades questions. It holds out a reasonable solution to all mysteries, but—and this is a very important "but"—Rosicrucian Christianity does not regard the intellectual understanding of God and the universe as an end in itself, far from it. The greater the intellect, the greater the danger of its misuse. Therefore the scientific teaching is only given in order that man may believe and start to live the religious life which alone can bring true fellowship.

The Rosicrucian Fellowship aims to make the Christian religion a living factor in the land. It encourages people to remain with their churches as long as they can find spiritual comfort there, and gives them at the same time the explanations which creeds may have obscured. To such as have already severed their connections with the church, it offers the Christian teachings from a new viewpoint, so that they may again be accepted and their essential beauty recognized.

People of various denominations enter educational institutions such as Harvard or Yale to study mythology, psychology or comparative religion, without prejudice to their religious affiliations. Students may enroll with the Rosicrucian Fellowship on the very same basis. Anyone is eligible who is not a Hypnotist, or professionally engaged as a Medium, a Palmist, or an Astrologer.

SOCIETAS ROSICRUCIANA IN AMERICA**(Society of Rosicrucians, Inc.)**

Ordo Sanctissimus Rubeae Rosae et Aureae Crucis
House of the S.'S.'.

See of New York City.

(Contributed)

The Societas Rosicruciana in America is the fourth institution of the Rosicrucian Fraternity in the United States.

The first Rosicrucian foundation was that of Fr. Johann Kelpius, in 1694. The monastery was situated on the banks of the Wissahickon, near Germantown, Philadelphia, Pa. This foundation has long since been extinct and no connection remains to the present day.

The second foundation was attempted by Pascal Beverly Randolph, who founded the "Brotherhood of Rosicrucians" in New England, in the early 60's. He afterwards founded the Temple of the Rosy Cross, South and West. He was succeeded by Freeman B. Dowd, and the last Grand Master in direct succession was Edward H. Brown, of Salem, Mass. Since the passing of Frater Brown, we have not been apprised of any successor and have no information that the organization is still active.

The third foundation was on Masonic lines, in 1878, deriving from the Societas Rosicruciana in Anglia and Scotia, and in 1889 Fr. Charles E. Meyer became Supreme Magus of the "Societatis Rosicrucianae in the United States." Restricted in its nature, this organization has never been active in propagandism and appears to have been more in the nature of a social body with quarterly meetings. Many of the older Colleges are now inoperative and few traces of it appear.

The Societas Rosicruciana in America, deriving from the English Fraternity, was incorporated in 1912 and is, therefore, the active American Branch of the Rosicrucian Fraternity. It has no connection with any other bodies claiming to be Rosicrucian in name or nature in this country. It follows the strict Rosicrucian procedure and maintains Work in Alchemy, Astrology, Hermeticism, Rosicrucianism, Natural Philosophy and Theology.

The Societas Rosicruciana in America is incorporated through its High Council in three distinct phases: (1) As a Fraternity, in which the Eckhartshausen Rituals are worked from Zelator to Prince Chief Adept; nine degrees. (2) As a Church, The First Rosicrucian Church of America (*Ecclesiae Rosicrucianae Catholicae*), ministering the major and minor sacraments and holding Apostolic Orders and the Historic Episcopate. This provides the Path for those who choose the purely spiritual way of development. (3) As a College of Research, for scientific demonstration of natural laws and phenomena, specializing in psychological research.

Its auxiliary bodies for propagandism and teaching are:

The American College of Astrosience, presenting a complete course in Astrology in fifty-seven lessons, covering every phrase of the Art, and granting diplomas to those who successfully complete the course;

The Seminary of Biblical Research, presenting courses in Christian Mysticism and Biblical Exegesis, Hermeneutics and History.

The Society maintains three grades of membership: Associate, for those who desire practical instruction in Psychological, Psychoanalytic and Psychotherapeutic methods; the Congregation of the Outer, for those who desire the Philosophical instructions, and Collegiate, for those who desire to undertake the Degrees of the Grades with their Historical and Philosophical instruction.

The Secret Work in Spiritual Alchemy is available to those who successfully pass required degrees or designated work in the lessons.

The Societas Rosicruciana in America works in complete harmony and close association with the Masonic Fraternity, and Constitutionally, its major officers are Masons of all Rites and Degrees. But its membership is, however, open to both sexes. It has no connection either near or remote with any bodies claiming to be Rosicrucian in the United States, or with the Seventeenth or Eighteenth Degrees in the Ancient Accepted Scottish Rite.

The Societas Rosicruciana in America is not concerned in the production of the Mediumistic Phenomena of Spiritualism, experiments in Spirit Photography or Psychical Research.

The Rosicrucian Fraternity as represented by the Societas Rosicruciana in America is a serious organization composed of men and women of good repute, who are engaged in the study of evolutionary processes, science, and the philosophy of life, and who endeavor to live usefully to humanity, in accordance with the principles laid down by our Fathers in the Art.

The instructions of the Fraternity cover Anthropology, Ethnology, Biology, Psychology, Philosophy, Archaeology and the various branches of science, academically and spiritually explained and applied. It does not tolerate, teach or engage in any of the various sex fads or manias inculcated by many of the present day organizations.

The Societas Rosicruciana in America operates through Colleges, Study Centers and Correspondence or Extension Lessons. The publishing and business matters of the Fraternity are conducted by the MERCURY PUBLISHING COMPANY, authorized printers and publishers to the S.'R.'I.'A.'.

The Official Organ of the Fraternity is "MERCURY," a quarterly magazine, now in its tenth year.

The Fraternity or its publishing agents may be addressed through
Post Office Box 420, City Hall Station, New York City.

Secretary General.

AIMS AND PURPOSES

The School of the Sacred Science aims to bring such as are sincerely seeking the Light of Self Knowledge into the realization of their oneness with **ALL** that **IS**: That is the **VISION**. By so doing, Man becomes seated in the activity of his own power as the Conceiver, Feeler and Actor of all of which he is conscious. As such—Conceiver, Feeler and Actor—he is superior to all of his creations, the extent of which is limited only by the state or manner in which he is conscious of himself.

If he is conscious or aware of himself as the activity of the whole power to Conceive, Feel and Act, he is the whole power. If he is conscious or aware of himself as the activity of a part of the whole power, he is that part of which he is conscious or aware. If unconscious of himself as either a part or the whole of the activity of that power, he remains potential to the activity of that power until awakened by it to the realization of himself as a conscious participant in its awareness of itself.

The purposes of the School of the Sacred Science are to so educate seekers of the Truth of Being as to enable them to help their fellow men out of the darkness of ignorance, and release them from the bondage of their own false creations. The Scientific, Metaphysical and Philosophical Departments of the School are in charge of competent teachers. The Curriculum of the School covers the Science of Self Knowledge from the Elementary stages of unfoldment in the child, to the esoteric interpretation of the Scriptures.

The Textbook and other books, as well as Correspondence Courses are available. All correspondence should be addressed to the Corresponding Secretary, P. O. Box 609, Station "C," Los Angeles, California.

Second International Spiritualist Congress, Sept. 6, to Sept. 13, 1925, in Paris, at the Headquarters of the Federation at the Spiritualists' House, 8, rue Copernic.

TITLE—LOCATION—OBJECT

Art. 1.—Between the groups adherent to the present statutes it is founded an union which takes the title of "International Spiritualists' Federation."

The Office of this Federation is settled in Paris, in the "Maison des Spirites," 8, rue Copernic, (16e).

Art. II.—The Federation's treble purpose is:

1^o The creation and maintenance of the ties of fraternity amongst the Spiritualists throughout the world regardless of their race, language or nationality;

2^o The study together of the Spiritualism and connected sciences under the scientific, philosophical, moral and religious points of view;

3^o The propagation of these studies and the diffusion of facts relative to psychic sciences; the mutual teaching and the practice of solidarity, which is the moral basis of Spiritualism.

Art. III.—The Spiritualism is a philosophy based upon abstract scientific notions which fundamental principles are thus stated:

(a) Existence of God, supreme cause of everything, abstract principle without anthropomorphic character;

(b) Existence of the Soul (or Spirit) bound to the physical body during its life by an intermediary element: perispirit or fluidic body;

(c) Immortality of the soul inseparable from its fluidic body;

(d) Communication through the mediumship between the visible and invisible worlds, between the incarnate spirits (living) and discarnate ones (dead);

(e) Continuous and progressive evolution of the spirits towards perfection across multiple sensible manifestations;

(f) Personal responsibility with application of the Casualty Law.

The "International Spiritualists' Federation" declares not to consider as intangible any of the postulates issued from the fundamental principles above stated; it only settles, as a necessary condition of its existence, the affirmation of these principles. It does not impose any tenet, but invites to the study for it is persuaded it offers the formula which responds to the historic needs of our epoch.

OBJECTS OF THE NATIONAL SPIRITUALIST ASSOCIATION OF THE U. S. A.

The objects of the organized movement of Spiritualism may be stated in part as follows:

To teach the truths and principles expressed in the Declaration of Principles and in the Definitions of "SPIRITUALISM," "A SPIRITUALIST" and "A MEDIUM," as adopted by the National Spiritualist Association of the United States of America.

To teach and proclaim the science, philosophy and religion of modern Spiritualism, to encourage lectures on all subjects pertaining to the Spiritual and Secular welfare of mankind. To protest against every attempt to compel mankind to worship God in any particular or prescribed manner. To protect and encourage spiritual teachers and mediums in all laudable efforts in giving evidence or proof to mankind of a continued intercourse and relationship between the living and the so-called dead. To encourage every person in holding present beliefs always open to re-statement as growing thought and investigation reveal new truth, thereby leaving every individual free to follow the dictates of reason and conscience in spiritual as in secular affairs.

DECLARATION OF PRINCIPLES

1. We believe in Infinite Intelligence.
2. We believe that the phenomena of nature, both physical and spiritual, are the expression of Infinite Intelligence.
3. We affirm that a correct understanding of such expression and living in accordance therewith, constitute true religion.
4. We affirm that the existence and personal identity of the individual continue after the change called death.
5. We affirm that communication with the so-called dead is a fact, scientifically proven by the phenomena of Spiritualism.
6. We believe that the highest morality is contained in the Golden Rule: "Whatever ye would that others should do unto you, do ye also unto them."
7. We affirm the moral responsibility of the individual, and that he makes his own happiness or unhappiness as he obeys or disobeys Nature's physical and spiritual laws.
8. We affirm that the doorway to reformation is never closed against any human soul here or hereafter.

DEFINITIONS ADOPTED BY THE NATIONAL SPIRITUALIST ASSOCIATION OCTOBER 9, 1914 AND OCTOBER 24, 1919

1. Spiritualism is the Science, Philosophy and Religion of continuous life, based upon the demonstrated fact of communication, by means of mediumship, with those who live in the Spirit World.

2. A Spiritualist is one who believes, as a part of his or her religion, in the communication between this, and the spirit world by means of mediumship, and who endeavors to mould his or her character and conduct in accordance with the highest teachings derived from such communion.

3. A Medium is one whose organism is sensitive to vibrations from the spirit world, and through whose instrumentality, intelligence in that world are able to convey messages and produce the phenomena of Spiritualism.

"Spiritualism Is a Science" because it investigates, analyzes and classifies facts and manifestations, demonstrated from the spirit side of life.

"Spiritualism Is a Philosophy" because it studies the laws of nature both on the seen and unseen sides of life and bases its conclusions upon present observed facts. It accepts statements of observed facts of past ages and conclusions drawn therefrom, when sustained by reason and by results of observed facts of the present day.

"Spiritualism Is a Religion" because it strives to understand and to comply with the Physical, Mental and Spiritual Laws of Nature, "which are the laws of God."

WHAT SPIRITUALISM IS AND DOES

It teaches personal responsibility.

It removes all fear of death, which is really the portal of the spirit world.

It teaches that death is not the cessation of life, but mere change of condition.

It teaches, not that a man has a soul, but that man is a soul, and has a body.

That man is a spiritual being now, even while encased in flesh.

That as man sows on earth he reaps in the life to come.

That those who have passed on are conscious—not asleep.

That communion between the living and the "dead" is scientifically proved.

It thus brings comfort to the bereaved, and alleviates sorrow.

Spiritualism is the Science, Philosophy and Religion of continuous life, based upon the demonstrated fact of communication, by means of mediumship, with those who live in the Spirit World.

It brings to the surface man's spiritual gifts, such as inspiration, clairvoyance, clairaudience and healing powers.

It teaches that the spark of divinity dwells in all.

That as a flower gradually unfolds in beauty, so the spirit of man unfolds and develops in the spirit spheres.

Spiritualism is God's message to mortals, declaring that There Is No Death. That all who have passed on still live. That there is hope in the life beyond for the most sinful.

That every soul will progress through the ages to heights, sublime and glorious, where God Is Love and Love Is God.

It is a manifestation, a demonstration, and a proof of the continuity of life and of the truth of the many Spirit manifestations recorded in the Bible.

It demonstrates the many Spiritual gifts with which mankind is endowed but which through want of knowledge have been allowed to lay dormant, or through prejudice have been violently and unjustly suppressed.

THE SUFI MOVEMENT**THE OBJECTS OF THE MOVEMENT**

1. To realize and spread the knowledge of Unity, the religion of love and wis-
dom, so that the bias of faiths and beliefs may of itself fall away, the human heart
may overflow with love, and all hatred caused by distinctions and differences may be
rooted out.

2. To discover the light and power latent in man, the secret of all religion, the power of mysticism, and the essence of philosophy, without interfering with customs and belief.

3. To help to bring the world's two opposite poles, East and West, close together by the interchange of thought and ideas; that the universal brotherhood may form of itself, and man may meet with man beyond the narrow national and racial boundaries.

THE SUFI MESSAGE

The Sufi Message was borne to the Western World by Inayat Khan, who answered the call by leaving India for America in 1910. In response to the world-demand of the time he gave Sufism a universal form, thus giving body to the soul of wisdom which had been conceived for centuries in the heart of the inner cult of the ancient Sufis.

DECLARATION

The policy of this Lodge is independent devotion to the cause of Theosophy, without professing attachment to any Theosophical organization. It is loyal to the great Founders of the Theosophical Movement, but does not concern itself with dissensions or differences of individual opinion.

The work it has on hand and the end it keeps in view are too absorbing and too lofty to leave it the time or inclination to take part in side issues. That work and that end is the dissemination of the Fundamental Principles of the Philosophy of Theosophy, and the exemplification in practice of those principles, through a truer realization of the SELF; a profounder conviction of Universal Brotherhood.

It holds that the unassailable Basis for Union among Theosophists, wherever and however situated, is "similarity of aim, purpose and teaching," and therefore has neither Constitution, By-Laws nor Officers, the sole bond between its Associates being that basis. And it aims to disseminate this idea among Theosophists in the furtherance of Unity.

It regards as Theosophists all who are engaged in the true service of Humanity, without distinction of race, creed, sex, condition or organization, and

It welcomes to its association all those who are in accord with its declared purposes and who desire to fit themselves, by study and otherwise, to be the better able to help and teach others.

"The true Theosophist belongs to no cult or sect, yet belongs to each and all."

Being in sympathy with the purposes of this Lodge, as set forth in its "Declaration," I hereby record my desire to be enrolled as an Associate; it being understood that such association calls for no obligation on my part other than that which I, myself, determine.

The foregoing is the Form signed by Associates of the United Lodge of Theosophists.

Inquiries are invited from all persons to whom this Movement may appeal. Cards for signature will be sent upon request, and every possible assistance furnished Associates in their studies and in efforts to form local Lodges. There are no dues of any kind, and no formalities to be complied with.

THE THEOSOPHICAL SOCIETY was formed at New York, November 17, 1875, and incorporated at Madras, April 3, 1905. It is an absolutely unsectarian body of

seekers after Truth, striving to serve humanity on spiritual lines, and therefore endeavoring to check materialism and revive religious tendency. Its three declared objects are:

First.—To form a nucleus of the Universal Brotherhood of Humanity, without distinction of race, creed, sex, caste or color.

Second.—To encourage the study of comparative religion, philosophy and science.

Third.—To investigate the unexplained laws of nature and the powers latent in man.

THE THEOSOPHICAL SOCIETY is composed of students, belonging to any religion in the world or to none, who are united by their approval of the above objects, by their wish to remove religious antagonisms and to draw together men of good-will whatsoever their religious opinions, and by their desire to study religious truths and to share the results of their studies with others. Their bond of union is not the profession of a common belief, but a common search and aspiration for Truth. They hold that Truth should be sought by study, by reflection, by purity of life, by devotion to high ideals, and they regard Truth as a prize to be striven for, not as a dogma to be imposed by authority. They consider that belief should be the result of individual study or intuition, and not its antecedent, and should rest on knowledge, not on assertion. They extend tolerance to all, even to the intolerant, not as a privilege they bestow, but as a duty they perform, and they seek to remove ignorance, not to punish it. They see every religion as an expression of the Divine Wisdom and prefer its study to its condemnation, and its practice to proselytism. Peace is their watchword, as Truth is their aim.

THEOSOPHY is the body of truths which forms the basis of all religions, and which cannot be claimed as the exclusive possession of any. It offers a philosophy which renders life intelligible, and which demonstrates the justice and the love which guide its evolution. It puts death in its rightful place, as a recurring incident in an endless life, opening the gateway to a fuller and more radiant existence. It restores to the world the Science of the Spirit teaching man to know the Spirit as himself, and the mind and body as his servants. It illuminates the scriptures and doctrines of religions by unveiling their hidden meanings, and thus justifying them at the bar of intelligence, as they are ever justified in the eyes of intuition.

Members of the Theosophical Society study these truths, and Theosophists endeavor to live them. Every one willing to study, to be tolerant, to aim high, and to work perseveringly, is welcomed as a member, and it rests with the member to become a true Theosophist.

FREEDOM OF THOUGHT

As the Theosophical Society has spread far and wide over the civilized world, and as members of all religions have become members of it, without surrendering the special dogmas, teachings and beliefs of their respective faiths, it is thought desirable to emphasize the fact that there is no doctrine, no opinion, by whomsoever taught or held, that is in any way binding on any member of the Society, none which any member is not free to accept or reject. Approval of its three objects is the sole condition of membership. No teacher nor writer, from H. P. Blavatsky downwards, has any authority to impose his teachings or opinions on members. Every member has an equal right to attach himself to any teacher or to any school of thought which he may choose, but has no right to force his choice on any other. Neither a candidate for any office, nor any voter, can be rendered ineligible to stand or to vote, because of any opinion he may hold, or because of membership in any school of thought to which he may belong. Opinions or beliefs neither bestow privileges nor inflict penalties. The Members of the General Council earnestly request every member of the T. S. to maintain, defend and act upon these fundamental principles of the Society, and also fearlessly to exercise his own right of liberty of thought and of expression thereof, within the limits of courtesy and consideration for others.

Colonel Henry Steel Olcott was the first President of the Society and held the office continuously until his death in 1906, serving in that capacity nearly 32 years. The office thus vacated by death was filled by the election of Mrs. Annie Besant as International President.

TRANSCENDENTAL SCIENCE

SOCIETY OF TRANSCENDENT SCIENCE, 116 South Michigan Blvd., Chicago, Ill., U. S. A. Founder and President, The Sahan Kabir Dr. Premel el Adaros, Ph.D.

(Contributed)

This organization is similar to the one started in the United States by Ralph Waldo Emerson, which teaches Transcendentalism. The Fundamental Principles of Transcendent Science is the "Inherent Reasons" in man, which, according to this doctrine, is the abode of Truth, and by certain processes of ideation and intellectualization one can attain to the state of "direct cognition" and bring into consciousness the inherent or "lying dormant" and inherent knowledge which is contained in one's own mind.

OBJECT AND PRINCIPLES

To promote a greater interest in a meatless and humane diet, as being a step toward high morality, better physical, mental and spiritual development. To cooperate with all humanitarian endeavors and develop justice among living kind. To demonstrate that eating of flesh is a violation of the laws of the universe, creating degeneracy, disease and retarding greater progress of the race. To lessen, in whatever way possible, the killing of millions of sentient creatures, while enslaving humans to associate in murderous occupations, indirectly causing cruelty and crimes. Kindness and justice are guiding principles. Membership, 25 cents.

Members are expected to promote humanitarianism, the higher ethics and aid in the spread of literature that bears on the work—organize sub-societies and promote the gospel of righteous living. The use of animal products may be optional. Initiates and sympathizers are welcomed. The daily lives of members may be guided by what is preached. All financial profits to be used to further development of the cause, literature and propaganda work. Independent contributions. No members are other than free will workers for the benefit of all living kind.

THE AUTHORIZED ROSICRUCIAN TEACHINGS

ASTROLOGY

CHRISTIAN MYSTICISM

It is cause for general gratification that, in these days of religious doubt, controversy and unrest, individuals are striving more than ever before to find out for themselves the basic principles that underly all life and conduct. It is in the interest of this individual research that we now offer the helpful and inspiring courses described below.

I. The Course in Rosicrucian Principles.

Since 1407, when the Rosicrucian Fraternity first manifested in Europe, thousands and thousands of earnest, right thinking men and women have found inspiration for their spiritual and help for their mental life in its exoteric teachings.

Rosicrucian ideas are never static. They change with the changing times. If other philosophies of living have proved inadequate, investigate Rosicrucianism. Avail yourself of the veritable treasure chest of inspiration and opportunity now awaiting you in this fascinating study, which embodies the priceless wisdom bequeathed by generations of brothers who sought to lift the veil that divides the seen from the unseen—to find the hidden source of the Great Life Power that, once understood, can give you all that you desire. Write today for **free** booklet, "Mastery of Destiny."

II. The Course in Astrology

Since time immemorial, mortals have gazed at the astral beauty of the firmament and wondered what causes produced the stars and what effects their various positions have on individual destinies. The position and influence of the stars have always been the most fascinating and revelatory of studies. Write for information about one of the most absorbing courses in Astrology ever offered.

III. The Course in Christian Mysticism

Down through the ages, Science and Theology have sought the Beginning and Source of all things. Now, as never before, they are at variance. This is because of failure on the part of both to grasp an underlying principle, known as the "mystical element." True mysticism is the exclusive attribute of true Christianity, as the repository and fulfillment of ancient prophecies and divine revelation. Scores who have taken this course have acclaimed it one of the most helpful and inspiring influences in their lives. Enrollments now being received. Write for further information.

SUBSCRIBE NOW TO "MERCURY," The Helpful Rosicrucian Magazine

Thousands of enthusiastic readers find that **MERCURY**, the quarterly magazine issued by the Societas Rosicruciana in America gives them just the help and inspiration they need for daily living, as well as keeping them informed on world events of importance. \$2.00 a year in U. S.—\$2.50 a year in foreign countries.

“HOW TO GET SUCCESS”

A WONDERFUL NEW BOOK
AND DESTINY CHART

Why Not Read it?

The Book that the Thinking World Has Been Waiting Many Centuries for, Lost Since the Time of Pythagoras, Hunted for by Plato, Socrates, Democritus, Swedenborg and Mrs. Eddy. The Book that Science Approves, and the Whole World Needs.

“FOUR BASIC PRINCIPLES OF NUMEROLOGY”

—is the name of this wonderful book, just off the press. The book of the century. Solves the meaning and accounts for every word in the Anglo-Saxon language, defines DESTINY and gives the reason for every experience. Establishes a scientific basis for the theory of life everlasting, tells what HEAVEN is, where it is located and how to attain it.

The book itself is the most astounding exposition of the relation of numbers to humanity that has ever been written. It is reputed by those advanced thinkers who have received a copy of it to be the book that contains the “Lost Secret” of Pythagoras, who lived six hundred years before Christ and was credited with having a perfect knowledge of all Nature attained through the SCIENCE OF NUMEROLOGY and the PRINCIPLE of all LAWS. He could define the destiny of worlds and peoples by his magic use of the law of mathematics applied to thought, words and things. When he died the ANCIENT SECRET perished with him and was lost to the world.

The author, Prof. Francis E. Householder, Ph. P. A. S. N., has devoted twenty-seven years of his life to the perfection of this book and it is believed that he has without doubt discovered PYTHAGORAS’ secret and reproduced his chart.

It is a condensed treatise on Physics, Metaphysics, Chemistry, Philosophy, Theology, Christian Science, Physiology, Psychology, Mental Chemistry, Mental Science, and last and greatest is the FOUR BASIC PRINCIPLES OF NUMEROLOGY, which proves the TRUTH or ERROR contained in each and every sectarian or denominational belief.

It is a big job the Professor has undertaken and it is almost universally conceded that he has proven the truth of the GREAT PRINCIPLE of LIFE, SUCCESS, HEALTH and PERFECT HAPPINESS secured by working in harmony with the NUMBER of the SOUL.

In speaking of the book a prominent Philosopher and Educator said:

“Professor, you have no doubt rediscovered the ANCIENT SECRET and given back to a hungry world the most wonderful piece of Scientific Numerical Symbolism which has been lost to our use for twenty-five hundred years. You have, at a glance, presented to the eye of the mind a clear and distinct exposition of religion, science, literature and mathematics; you have harmonized all the creeds and sects, accounted for all the laws of the Physical and Metaphysical worlds and blazed the trail to the ULTIMATE—and explained GOD. A wonderful work.”

VITAL FACTS

A BOOK FOR THOSE WHO THINK

A gold mine of practical, vital knowledge and information. Material for seven books boiled down into one. Each of these seven chapters worth more than the price of the book to anyone.

WONDERS OF THE AIR: how to breathe for health, vigor, vitality, power. Tells how and gives the reasons why, including the mental breath. Tuberculosis impossible, if these directions are followed.

VITAL FOODS: what is the real Staff of Life? The principle of this chapter alone, if accepted, will make life worth the living. Stop being a hog, or the other extreme, a diet crank and faddist. Learn how to live well at small cost.

THE TWO PRINCIPLES OF MIND. Clears up some popular misconceptions of the dual mental functioning. Gives the how and why; shows how to make a convincing test.

How DESIRE IS FULFILLED through Demand and Affirmation. There is only one right path of achievement and many wrong ways which mislead. How one man demanded and received \$10,000. What to avoid and how to make proper application of mind-power for actual, practical results.

LOVE, THE MAINSPRING OF EVOLUTION. The how and why of happy marriage. A practical solution of the sex question in all its many-sided complexity. It is great.

THE MONEY CONSCIOUSNESS. A sure road to prosperity. Anyone may travel this road. The mental basis of material wealth is clearly shown; convincing examples are given which may be imitated in a mental way.

THE PHILOSOPHY AND MISSION OF LIFE. The secret of real achievement. Many will find their life's mission by reading this chapter. How to build for permanent results. The Ego is everlasting. Character never dies.

Send 50 cents, by check or money order, for one, or one dollar for three copies. This is a book you will feel like passing on. Descriptive circular and endorsements on request.

WEALTH, HONOR, RICHES

Do not depend upon opportunity or intellectual brilliancy of any kind, because it is well known that uneducated people often acquire great wealth, while cultured and talented people remain in poverty.

Again, they do not depend upon capital, because many men with capital lose what they have, while others with no capital acquire phenomenal wealth.

Law governs every form of light, heat, sound and energy. Law governs every material thing and every immaterial thought. Law covers the earth with beauty and fills it with bounty. Shall we then not be certain that it also governs the distribution of this bounty?

We have published a remarkable little book, giving the conclusions of science concerning these laws, which we will send for only 10 cents.

This book is of unusual interest to students of the problem of an after-life and the relationship between the two planes of existence, visible and invisible. The author does not seek to promulgate an ism or cult but presents the records of thirty years' experimental research in this obscure field in the interest of psychological science—normal and abnormal. The evidence obtained, with the assistance of Mrs. Wickland, the author's wife, whose remarkable psychic endowment has made direct contact with the invisible world possible, has indubitably demonstrated that

DEATH, SO-CALLED, IS A MISNOMER and that discarnated Intelligences play an important role in human affairs, both for good and for evil.

EMANCIPATION: THE KEY

The Book of Life Unsealed

By FAITH STEWART ARNOLD

EMANCIPATION is an absorbing study, in fiction form, based upon facts, revealing the spiritual import and law of love, sex, and painless birth. It gives the vital message of the new civilization through the white light of purity, truth, love, and demonstration.

Alice Stone Blackwell writes: "*Emancipation*, by Faith Stewart Arnold, is an important book—one to be widely read and studied."

"The subject presented in *Emancipation* is confessedly of extreme delicacy but, though treated with absolute candor and thoroughness, the book is above criticism on that score. The author writes with transparent sincerity. Her method is unique and effective."
—Rev. D. W. Clark, D.D., Beacon Hill, Boston.

"This book is a sharp light on the pathway of life, disclosing much that ought to be. It furnishes concise statements of special value to those who are trying to find out that which will be. *Emancipation* cannot fail to inspire and elevate all lovers of truth."
—Rev. F. A. Wiggins, D.D., Boston, Mass.

"*Emancipation* should rank as a contribution to the sacred literature of the world. The whole work is pitched in the high key of the ideal and is true to pitch throughout."
—Rev. T. E. Allen, Asso. Lit. Ed., Banner of Life, Boston, Mass.

These are the Symptoms of Chronic Kidney and Bladder Sickness That Baffle the Doctor and Make Life Miserable for the Sufferer:

High blood pressure—Easily tired out—Lost "pep."
Dancing spots before the eyes—Headache and head noises.

IS THERE SOMETHING YOU WANT TO KNOW?

Is There Something That It Would be Valuable to You to Know at Once?

BEBE MARIE, 100% Correct

Perhaps I can GIVE YOU THE ANSWER. I have given TRUE ANSWERS TO HUNDREDS OF QUESTIONS that were altogether beyond my own knowledge, or that of the person asking the question. I have had this power, whatever you may call it, Clairvoyant, Clairaudient, Magnetic, Electric, Radio-active, Spiritual, Spiritualistic, Mediumistic — we shall not quarrel about adjectives—ever since I was a small child. It is spontaneous. It comes to me, but I do not seek it, or pry into its reasons for using my mind. It seems to be something quite outside of myself.

My gift does not touch the past at all. It deals with things of today and tomorrow.

I charge \$1 for answering ONE QUESTION. Ask as many as you please, the charge remains the same. Five questions for \$5. I will give your letter my personal attention and tell you what I am told to tell you by this Power. You must not ask me such questions as "IS MY HUSBAND TRUE TO ME?" or any question that would introduce disharmony into the home if the answer were given. But you can ask me about BUSINESS, or LOVE or MARRIAGE, or FORTUNE, or anything that concerns you nearly, which you want to know very much. If I get nothing I shall return your dollar. I do not GUARANTEE anything at all, except that I shall tell you what I am told to tell you. But others who know my work say that I have never been mistaken in my answers. Perhaps this will interest you very much.
